Period : 21st century

Condition : Très bon état

### Description

This sumptuous Cartier bangle ring is distinguished by its sleek design and polished finish in 18-karat white gold. Its domed silhouette, both voluptuous and minimalist, captures the light from every angle, creating a play of subtle reflections. Inside the band, the Cartier hallmark, the word "750" and the goldsmith's mark attest to its authenticity and finesse, while the size 56 (equivalent to US 7 $\frac{1}{4}$ ) guarantees a precise fit. Worn alone for a decidedly contemporary look or combined with other bangles for a stacked effect, this piece illustrates the excellence of Parisian craftsmanship. Despite a few superficial micro-scratches, the overall condition is impeccable, with no dents or chips. The ring can be adjusted by a professional jeweler if you wish.
