

I, You, We, Them ,,,,a Long Time Ago ,,,,in Natural Latex

365 EUR

Period : 20th century

Condition : Très bon état

Material : Other

Length : 42

Width : 8

Height : 20

Description

Mitosis is not a disease... it was our common starting point, it may have been a short time ago or a long time ago, and longer for some. This didactic visualization in two consecutive displays is made of polychrome natural latex. Each element, the size of an orange, can be read as an abstract work. Rare complete set from the 1950s, in magnificent condition.
