feature is the presence of two small secret compartments in the lower part of the band, which can be used to discreetly store confidential documents or small jewels. This type of wardrobe is typical of the Tyrol area, a geographical mountain region located between Italy and Austria. The wardrobe will be shipped disassembled, assembly is not included in the delivery, but we can provide a support video. Please note that this is a wardrobe whose assembly is very simple because it is divided in half into two separate bodies. Although in our opinion it is perfect for decorating a country or mountain home, its old-fashioned charm can also bring warmth to a modern urban environment. In terms of conservation, the wardrobe is in good general condition with minimal signs of wear compatible with its age.
