

- Wall Light - Art Deco / 30s/40s - Glass & Porcelain

80 EUR

Period : 20th century

Condition : Très bon état

Material : Glass

Description

- very good condition this wall light which measures 350 mm in length, 85 in width and 95 in depth, once placed on these bases - - the idea that it is a cinema night light is perhaps not ridiculous ..... it has been used, vague traces of paint under the two bases show it, the socket is there, must be re-electrified, which we can do on simple request -- the bases are in earthenware or vitrified porcelain and the tube in white glass -
