Description

Magnificent set of 12 silver plated metal knife rests in a box. A more than original shape in imitation of wooden benches. Dimensions: Height: 3.5 cm Length: 8 cm A very nice goldsmith work. Master goldsmith Barra Paris active from the 1920s to the 1950s. 12 knife rests in superb condition, they have been polished for more shine and ease of maintenance. To enhance your table or a great gift idea. I would like to point out that the box itself is quite tired (a broken rear hinge) nothing serious, it is just the container.
