Description

Four Carved And Gilded Wood finials 1800s resting on hexagonal base with vegetable pastille carving frames, set of four turned and carved lime wood vases in the round with original gilding in fine gold leaf on red bole preparation. Originally these four gilded finials decorated the end of a canopy or balustrades, but they are decorative elements that lend themselves admirably as bases for exclusive table, study or bedside lamps. This set of four antique gilded vases is from northern Italy and is in good condition.
