Description

A beautiful set of small frames including a slightly larger oval one. They are all enameled bronze: three blue, two red and one purple with star decoration. Some are guilloché, the glass of the round red model is convex, the enamel of the purple one has a small manufacturing defect not really visible to the naked eye but here highlighted by the high definition. These small models are commonly called "stamp frames", this no doubt to give an idea of their size. These frames can also be sold retail.
