Description

Large sautoir necklace in 750/°° yellow gold (18 KT, weevil hallmark) of 1.76 meters composed of a filigree mesh chain that is both rich and finely crafted. In perfect balance, the motifs represented in the elongated shuttle links are repeated to compose intermediate links, thus punctuating the volume of the necklace. Its great length allows it to be worn in several rows; the spring ring clasp with which it is equipped, like antique watch chains, allows up to four turns and can be worn ostentatiously, for decoration, as well as serving as a support for a pendant. A great classic of the antique sautoir, easy to wear in all circumstances. The sobriety and the great length of this sautoir make it a particularly sought-after jewel. Gross weight: 87.39 g Condition: light micro-scratches on the gold imperceptible to the naked eye
