

- Clock Dial / Cartel - Angel With Dove Painting -

80 EUR

Period : 19th century

Condition : Très bon état

Material : Porcelain

Description

- nice painting, does the signature on the back correspond to the painter..... not knowing much about watchmaking, we present this dial above all for its quality of execution, without being able to specify what kind of clock it is, nor date it precisely....- diameter of the piece: 105 mm. note a tiny lack which is visible on the photo where the piece is lying towards the back -
