Description

A refined 19th century bronze model of the famous Warwick Vase, typical of Italian Grand Tour souvenirs. Inspired by the monumental ancient Roman vase discovered at Hadrian's Villa in Tivoli and later housed at Warwick Castle, this reduced version is richly detailed with high-relief Bacchic masks and bold double handles. Measuring 12.5 cm in height and 20 cm in width, the vase reflects the neoclassical taste and fascination with Ancient Rome that captivated educated travellers of the Grand Tour. The foot rim is slightly misshapen, but the piece remains stable and full of character. A scholarly and decorative object, ideal for a classical collection or collector's cabinet.
