

Small 1930s English Bakelite Desk Lamp With Decorative Glass Shade

350 EUR

Period : 20th century

Condition : Restauré

Material : Glass

Width : 16

Diameter : 12

Height : 29

Description

Lovely little Art Nouveau desk lamp, made in England in the 1930s. The moulded Bakelite base incorporates the original rotary switch. The attractive glass shade has a green pattern; please see our photos. Rewired for the UK with a gold twisted cable, it can be adapted for any destination by our electrician. Contact us for more information. Uses a standard bayonet bulb, widely available everywhere. We recommend a warm, economical, and pleasant-to-the-touch LED bulb. A lovely piece for a desk or bedside table.
