Description

A curious watch holder and pocket emptier, this bronze model represents the schoolmistress and her dunce of a student wearing a dunce cap and leaning against a signpost transformed into a watch holder, in the center, a bucket or container that can be used as a pocket emptier or ring sizer. In gilded bronze, the structure and elements imitate wood and its grain, which gives this set a slightly bucolic air. Shipping in France and internationally, contact me for details
