

Horse And Sulky In Painted Tin, 1950

650 EUR

Period : 20th century

Condition : Bon état

Material : Painted metal

Description

Pedal-powered carriage, horse and sulky in painted sheet metal, missing the drive system, the child must push with his legs. Sulkies remain in the collective memory of ex-children who have frequented the gardens and public parks of cities since the dawn of the 20th century. It was indeed at this time that pedal horses made their appearance on the dirt paths of gardens, like the large merry-go-rounds. They were often rented in public gardens where children could race, they were subjected to harsh tests and repaired over the seasons. This one is not doing too badly! Length. 140 cm
