#### Description

Magnificent and rare covered solid silver cup dating from the very early 19th century. The cup rests on a pedestal with a corded decoration. The body is decorated with very fine engraving in the style of the Consulate and the First Empire, featuring large water leaves, wide palmettes framed by scrolling foliage, friezes of post offices, etc. The lid is engraved with a frieze of open ovates and a radiating palmette motif, in the center of which is the pine cone-shaped handle. period. Goldsmith's hallmark: CFB with a cup surmounted by a star for Charles Félix Benoit, active between 1801 and 1809. This silversmith's work appears to be quite rare; he notably produced religious silverware. Covered cups are relatively rare, especially when they are so early. The engraved decoration is very fine in thickness, which accentuates the elegance of this cup, already enhanced by the delicacy of the base and the curve of the cup. 11.2 cm high 6.9 cm diameter at the rim 163.65 grams Very good condition.
