Description

Ring in 750/°° yellow and white gold (18 KT, eagle's head hallmark) mainly decorated with a domed curb link motif, paved with brilliant-cut diamonds set in grains. This one is in non-rhodium-plated white gold, which creates a subtle shade of color with the two hoops that carry it, in yellow gold. The central link is suspended, and mobile within the hoops that embrace it. The general curve follows the shape of the finger, and makes it a very ergonomic ring, which can be worn indifferently on all fingers. A ring full of curves and roundness, airy, and timeless. Total weight of the paving diamonds estimated at approximately 0.30 carat Gross weight: 7.60 g Finger size: 56 and a half - possible resizing to be studied by our workshop (current diameter 1.80 cm / US size close to 8)
