Description

Business card of Clément ADER, "the Father of Aviation" Clément ADER Château de Ribonnet Beaumont sur Lèze Hte Garonne 68 Rue de l'Assomption Traces of use Clément Ader, (1841/1925) engineer and inventor, passionate about mechanics and electricity, inspired by bird watching, devoted himself very early on to the study of flight based on the technique of biomimicry. In 1890, he achieved a historic feat with the Éole, a steam-powered flying machine that he managed to take off over a short distance. This feat is recognized as the first powered flight in history and Clément Ader as the pioneer of aviation. He is recognized as the "Father of Aviation" His main inventions 1868 The rubber tire. Replacement of the iron bandage of the wheels with rubber, the first solid tire.
