Description

Elegant enameled porcelain vase by Tharaud Limoges, circa 1950/1960. Rare model with stylized decoration of large leaves or ferns in shades of deep blue, with hot enamel crystallization effects, known as "flamed enamels". The highly stylized plant decoration evokes the graphics of the decorative arts and the modernist aesthetic of the 1950s. This work of color and material, specific to Tharaud productions, gives this vase a unique and decorative appearance. Signature under the base: Tharaud Limoges France. Very good condition
