Ware.

Marked to the base with the Royal Doulton green factory mark and an impressed model number. Although unsigned, the vase is almost certainly based on a design by Robert Allen. The vivid yellow ground, striking florals, and characteristic black-glazed rim are all typical of Allen's work in the 1920s. A registration number (RN) is also present, confirming this vase as part of a protected design line.

This example is of exceptional rarity and museum quality--surviving Mandarin Ware vases with yellow ground are especially sought after and rarely found in this condition.
