Description

Antique French/Belgian Military Cavalry Spurs -
ca. 1880-1910 (Nickel Alloy)

A fine and rare pair of late 19th to early 20th
century European cavalry spurs, likely of French
Model 1885 or Belgian military origin, crafted
from durable nickel alloy (commonly referred to
as German silver).

Key Features:

Period: Circa 1880-1910

Origin: France or Belgium (cavalry issue)

Material: Nickel alloy - corrosion-resistant and
field-durable

Dimensions:

Length: 12.5 cm

Width (heel band): 10.2 cm

Rowel: 8-point blunt wheel, original, rotating
smoothly

Bilzen 3740

Attachment system: Classic button peg system for leather spur straps (see photos)

Condition: Excellent vintage condition; fully intact with minor surface patina consistent with age. No cracks, restorations, or warping.

Details:

These spurs were standard issue for mounted troops and gendarmerie, built for practical field use. The clean, utilitarian design, absence of decorative markings, and rounded button pegs are typical of enlisted cavalry gear. A small eyelet on the side may have once secured a leather keeper or tag.
