

19th Century Copper Jug

110 EUR

Period : 19th century

Condition : Bon état

Material : Copper

Diameter : 27 cm au plus large

Height : 36 cm

Description

19th century copper jug. Cellar jug? Wine jug? It bears the number 10 on the handle, which seems to define a size or volume. Measurement? Assembled by tin soldering. The bottom is reinforced by a very thick copper circle. Made from thick copper: weight 2.460 kg. Good condition. Has undergone an old repair: crude tin soldering at the central ring. Dents on the handle
