Description

Refined and understated, this set of 6 Limoges porcelain soup plates is designed by the prestigious Bernardaud house. This is the "Bertille" model, recognizable by its scalloped shape with twelve sides, highlighted with a fine gold line applied by hand, and enhanced with a golden monogram "MJ" in a calligraphic style typical of the Belle Époque. With its fine paste, dazzling whiteness, luminous gilding, and discreet elegance of the decoration, these pieces are equally suitable for refined table settings, private collections, or refined decoration.
