

French Cloth Pierrot Attributed To The Aap Parisian Workshop Run By Stefania Lazarska

195 EUR

Period : 20th century

Condition : Très bon état

Material : Linen

Description

This 10" Pierrot is unmarked but shows characteristics similar to other AAP creations realised by Polish artist during and shortly after WWI in Paris. In fair played with condition, this Commedia dell'Arte character has the face lined with very fine silk which has disintegrated, here and there. The painted features are still there and so is the sewn on artificial silk costume. The body is made of stuffed cotton cloth with the typical AAP slim shape of the hands. It comes with a contemporary resin colorful sofa.
