people. This approach is reflected in all of his works, considered great masterpieces of design: from the Moroso Klara, Mathilda, Fjord, and Lilo armchairs to the Husk and Crinoline seats and the B&B Italia Bend Sofa; from the Kartell T-Table coffee tables to the Boffi Salinas kitchen; from the Cassina Sengu collection to Shimmer Glas Italia, to name a few. The Landscape collection for Rosenthal combines simplicity and softness with a rich surface texture. These translucent porcelain shapes, of exceptional finesse, create ceramic surfaces with varied and complex decorations. The pattern is irregular, sometimes filling the shape, sometimes escaping from it. Landscape is a unique service that combines smooth and textured surfaces, solidity and translucency, as well as Western and Eastern ceramic styles. Landscape is a romantic and sophisticated collection designed by Patricia Urquiola for Rosenthal Studio-Line, which enriches the table with elegance and sophistication. The coffee cups and saucers, crafted from the finest white porcelain, feature soft shapes and organic decorations that evoke nature in a refined and contemporary way. The decoration, fused into the glass at over 1000°C, penetrates deep into the porcelain's surface. This process guarantees extraordinary resistance to scratches and abrasion, preserving the brilliance of the colors and the integrity of the design over time. Lightweight yet sturdy, the cups are ideal for everyday use and special occasions, combining practicality and style in a single creation. Perfectly dishwasher- and microwave-safe, the Landscape cups represent the excellence of Rosenthal production, combining contemporary design and traditional German craftsmanship. Each piece expresses the inimitable creative touch of Patricia Urquiola, capable of transforming every daily gesture into a small aesthetic ritual.
