Description

Large pair of Medici vases in carved and gilded wood decorated with floral bouquets. This pair of vases with flower bouquets are carved in very high relief with a thickness of 10 cm. They are very nicely carved and decorated with gadrooned decorations, shells and acanthus leaves on pedestals for the vases. Designed in two parts, the top of each of them is composed of a beautiful bouquet of flowers and the two are different in their composition. They both date from the middle of the 18th century. In good general condition, they have retained their original leaf gilding despite some small gaps visible in the photos. Two very beautiful decorative elements in gilded and carved wood from the middle of the 18th century. Flower vases in a very beautiful quality of sculpture and gilding. Dimensions: 42
