Description

"Large architect's / drawing set in green leather slipcase signed on the top cover I.Kern in Anna, Switzerland circa 1800. Very complete. Just a few cracks on the green leather." Information about I. Kern, instrument maker in Switzerland I. Kern is a manufacturer of precision instruments, particularly known for its compasses and drafting instruments. The company was founded by Jacob Kern in the early 19th century and was a pillar of the industry in Aarau, Switzerland. Here are some key facts about I. Kern: History and Tradition: Jacob Kern was one of the pioneers of Swiss industry, known for his practical mind that led to the development of the outlines of the first two-legged instruments in the early 19th century. Products: Kern's instruments were renowned for their quality and precision. Kern compasses, for

example, were widely used and appreciated in Switzerland and beyond. Closure and Revival: The original company closed in the late 1980s. However, a family-owned company, Scompas Kern AG, attempted to revive this tradition by restarting compass production under the name Smiling Scompas. Cultural Impact: For many Swiss, the name Kern evokes early steps in geometry, showing the cultural and educational impact of these instruments¹. Innovation and Quality: Kern instruments were known for their innovation and quality, which helped the company establish itself as a leading player in the precision instrument industry.
