

Double Mask Nda Baulé Ivory Coast

1 200 EUR

Period : 20th century

Description

Double Baoulé mask, the 2 colors symbolize the 2 opposite sexes, well sculpted, with finesse and precision, beautiful patina of use, this mask danced and probably dates from the 1930s/50s. These masks are very rare on the market, this is my first, a "similar" model sold for a record price at Christies, see here => Christie's From a Lyonnaise collection. Height 36 cm. It is less shiny in real life than in the photos because of the necessary spotlights.
