320 EUR

Signature : Faïencerie d'Onnaing

Period : 19th century

Condition : Parfait état

Material : Ceramic

Diameter : aux anses 34,5 cm ouverture 23 cm

Height : 20,5 cm

Description

Very beautiful barbotine planter from the 1900 - 1920 Art Nouveau period from the Onnaing earthenware factory.The upper edge is decorated with three protruding blue chestnuts that can be found on the belly in two other places.The rest of the decoration is essentially composed of chestnut leaves in bistre and pink tones. The two sides are identical.The two handles are rather knotty branches in a wood tone that matches the decoration well.The quadripod base ensures good stability for the object. It is in the tone of the handles but takes up the main motif of chestnuts and chestnut leaves.The interior is carmine red, one of the usual colors of the earthenware factory with pastel blue.The dimensions are generous: 34.5 cm from one tip to the other of the handles, 23 cm at the opening and 20.5 cm in
