Description

Masonic seal in rock crystal, lapis lazuli, enamel and gilded metal - Late 19th / early 20th century
Rare and prestigious Freemason seal, composed of an egg cut from rock crystal set in a decorative setting in finely chiseled gilded and silver. Description
The shaft is adorned with lapis lazuli plaques with cut sides, highlighted by silver threads. The base is decorated with royal blue enamel with white dots, typical of the symbolic ornamentation of the late 19th century. The matrix of the seal, in patinated bronze, depicts a coded Masonic composition, with stylized elements (levels, compasses, column, stylized flowers), engraved in hollow. The set clearly evokes a personal ritual object, reserved for a high dignitary or member of a rite workshop.
