Description

Beautiful ancient Christ or Crucifix, the subject is in finely cast bronze, very finely worked, which is not visible in our photos, the cross is in white metal, certainly nickel silver, but the great particularity which makes this Crucifix interesting is the micro-mosaic marquetry work which is truly remarkable and in excellent condition. Note what one could call the "attributes" on either side of the arms of Christ, as well as the P which tops the cross above his head. If you have any questions, we are at your disposal. _____
