Description

Rare and beautiful complete fan with its beautiful carved and openwork quiver branches, silver dove pedestal on ivory, a beautiful piece with over-decorated branches and pretty painted decoration of flower and fruit scrolls embroidered with round sequins with bright metallic sparkles, the intermediate branches also in ivory, fine and elegant with a golden pearl on silver, all in good condition like the main branches of great elegance and style and from the beginning of the Reign of Louis XVI, around 1775, there is in the painted motif a reminiscence of Louis XV; a complete piece, weakness to the folds, however well preserved, an object by definition for an informed collector in love with the Reign of Marie Antoinette. A beautiful, integral and very decorative object
