Description

Very nice set of 12 Christofle Versailles cake forks.This is a very fine and elegant model.The elegance comes from the narrowness of the teeth and the lightness of the handle, the line of which is close to a refined Uniplat model and highlighted with a very slightly thickened border at the base. Set in very good condition and with a beautiful shine with the micro-scratches of use. Even if your cutlery set is not Versailles, do not fear the lack of taste. Your cake forks will elegantly follow any sober model like Albi, Fidelio from Christofle or Uniplat, Baguette from any other goldsmith...
