Description

Large Champagne Bucket in Thick Crystal  
Substantial champagne bucket in transparent crystal, weighing approximately 9 kg. Hot-modeled using a stretching technique, it was crafted around 1950/1960 at the Val Saint Lambert crystal factory in Belgium by Antonio and/or Guido Bon. The piece is in perfect condition. While unsigned, it is documented (see attached photos). It can be compared to the work of André Thuret for Daum in Nancy. Bibliography Referenced in Mardaga - La verrerie européenne. About the Designers Antonio and Guido Bon were Italian designers active in the 1950s and 1960s. They specialized in furniture and decorative objects, collaborating with several European manufacturers. In the 1960s, they produced a small number of pieces
