

Pair Of Cups, Napoleon III Ring Sizes - Butterfly Wings, Brass Setting

160 EUR

Period : 19th century

Condition : Bon état

Diameter : 9,5 cm

Height : 5 cm

Description

Rare pair of footed bowls, ring holders with natural decoration of tropical butterfly wings included under domed glass. Each piece features a meticulous radial composition, highlighting the beauty of the patterns and iridescent reflections of the wings (morpho, caligo, etc.). The gilt brass mount is finely beaded and rests on a matching pedestal. Delicate and refined work of salon curiosity, typical of the 19th century taste for exotic and scientific objects. A very beautiful collector's piece, decorative and poetic. Good overall condition, light wear to the patina, micro-scratches of use under the glass
