

Small Two-part Bookcase In Solid Cherry Wood - 1900

3 400 EUR

Period : 20th century

Condition : Parfait état

Material : Solid wood

Width : 130

Height : 200

Depth : 42

Description

Regional furniture in solid blond cherry wood, composed of a wall unit and a base unit. The sideboard section has mitered framed doors with a central panel. The sides are canted and an elegant plinth runs around the perimeter. The whole rests on sabot feet at the front. Then, the bookcase section is formed by two framed glass doors and topped with a small scalloped cornice. Inside, we find original adjustable shelves on racks. This two-body piece of furniture benefits from a shallow depth and a beautiful shimmering color thanks to its blond cherry wood.
