Description

Maurice Pitot. Signed under the piece. Stoneware vase 1925-1935 Bouffioulx, Belgium Stoneware Style: Art Deco Condition: Very good overall condition. Description: Very beautiful stoneware vase by the Belgian ceramist Maurice Pitot, active in the 20th century in Bouffioulx, a center renowned for its production of vitrified stoneware. The piece is typical of Art Deco production. The surface is enlivened by a so-called "drop" glaze (or druppelmotief), with brown, white and bluish shades, characteristic of Bouffioulx ceramics. The fluid superposition of the glazes creates subtle and deep material effects, revealing all the technical mastery of the artist. A very beautiful stoneware by Pitot that will blend perfectly into your modern or vintage interior.
