Description

follow carefully.....3 chairs in new condition, never assembled, great brass plating, black leather seat, they were packed in pieces, I reassembled them1 chair in good condition to make the fourth chair in black leather, slightly pitted on the backrest2 chairs in white leather, pitted brass plating on the backrest, condition 6 out of 103 chairs without seats, there is only the structure condition 5/10 pitted brass plating. the ideal would be to have the damaged chairs re-plated, you have to find the craftsman, in a big city, in Biarritz there is none. the model is not found on my doc and on the internet, if you have a lead, thank you
