Description

This pair of Bayeux porcelain lamps dates from the mid-19th century, in perfect condition, they are decorated, inside vertical reserves on a navy blue background, with geometric patterns, flowers and small bouquets painted in gold. The opulent gilt bronze mount is made up at the base and at the top of the neck of a frieze of oak leaves. The electrification of these lamps is recent and we present them with a basic lampshade in order to leave the choice of colors and shape to the customer, the latter do not always justify the shipping costs. The lamps without lampshade measure 34 cm and with the lampshade and socket 61 cm.
