Description

Hoisting the sails 1903. The careful detail of the characters, the sails and the rough sea provides a pleasant setting. In the foreground we can see a chest and a dredge. On the left, islands or glaciers, nothing is less certain. The boats with all sails out each have a different shape. It seems to be paving the way for the only one whose sails are folded. Many birds accompany this navigation.... So the journey rather the destination.... Delivery possible not included in the price
