# Pair Of Polychrome Carved Wooden Panels By Duclos

780 EUR

Period : 20th century

Condition : Très bon état

Width : 65cm et 55cm

Height : 65cm  et 60,5cm

## Description

Pair of polychrome carved wooden panels made by DUCLOS. Popular work from the early 20th century, one represents the roar of deer in the forest of Rambouillet and the other a scene of agricultural work in the fields. These 2 single-piece panels are carved in low relief, the work is precise and the colors have remained very present. Decorative panel in very good condition and conservation.
