Description

Rousseau crystal-ceramic box - Baccarat XIXe - Profile of Jean-Jacques Rousseau - D. 6.5 cm
Small round fly box in finely cut crystal, decorated with a crystal-ceramic medallion representing Jean-Jacques Rousseau in a delicately molded profile. The very neat guilloché background suggests the quality of execution of the Baccarat workshops in the 19th century. The portrait, faithful to the iconographic canons of the philosopher of the Age of Enlightenment, is part of a sober and refined aesthetic which recalls the productions of Baccarat documented in specialized catalogs
Diameter: 6 cm
Height: 2.5 CM, the metal ring of the bottom of the box is missing, the mount of the lid is present.
Good condition overall. The crystal remains bright, the profile is clear and the finishes precise.
