Description

Small octagonal plate on pedestal - China, Qing dynasty, late 18th - early 19th century Porcelain with polychrome famille rose decoration. The basin decorated with a floral motif composed of a blooming peony, a yellow flower and a stylized rock, framed by pink and turquoise friezes highlighted with brown lines and a wolf's tooth motif. Turquoise enameled pedestal decorated with lambrequins and hatched white reserves, typical of productions from the end of the Qianlong reign and the beginning of the Jiaqing period (circa 1780-1810). Under the base, mark painted in iron red. Very satisfactory condition, slight traces of use. 16 cm in diameter and 5 cm in height
