

Art Nouveau 2-light Lamp, Opalescent Tulips, Era Galle Daum Benson Sabino 1900

390 EUR

Period : 19th century

Condition : Très bon état

Material : Glass

Height : 34 cm

Description

Beautiful art nouveau 2-light table lamp with scalloped opalescent tulips. Typical of the period, charming lamp with two hot-worked tulips in floral form. Beautiful opalescence with a turbulent edge, all the charm of an era. The base is very stable with acanthus leaves on the stems and a plant star base. Very floral, both the base and the foot. 34 cm high, good condition, works well, the old wire is worn, to be changed on request but this does not hinder in any way. To place on a pretty desk or on a bedside table, very charming. NB: I have another lamp with identical base but different tulips, see in my other objects, thank you.
