Description

Lucien Gau Hot Water Bottle Lamp Directoire Model 16031 Made of patinated and gilded bronze, it consists of a slender central shaft resting on a molded oval base, topped with a single light arm. The whole is topped with an adjustable shade in burgundy painted sheet metal, decorated with a gilded net, allowing the light intensity to be modulated. This piece reflects the recognized know-how of Lucien Gau, heir to the tradition of Parisian bronziers, and embodies the elegant sobriety specific to the Directoire style. Good general condition, working electricity, lampshade with discreet signs of use.
