mariastraat 15

Bruges 8000

Very few of paintings with swimmers are still in private hands, most of them sit in important museums. Bonaventura Peeters I was one of the most important Flemish marine painters. In a short, but prolific career he painted very diverse maritime subjects, set locally, but also in the Mediterranean, in N. Europe, on the coasts of N. Brazil, etc. As you can see, he was also an excellent figure painter. All my paintings stand fully documented on my website:
