Description

Italian Reverse-Painted Glass Wall Plaque, signed "Pachini"
Italy, mid-late 20th century
Rectangular decorative plaque in polished flat glass, reverse-painted with enamel and metallic pigments to depict a stylized female profile with flowing green hair. The composition blends Art Deco revival elegance with mid-century fashion illustration influence, set against a richly textured ground of gold, bronze, crimson, and green tones. Executed in the sotto vetro (reverse-painted) technique, where all details are applied to the back of the glass, then sealed and backed in a resin/fiber layer for protection. Signed vertically "Pachini" at the edge. Fitted with a hanging wire to the reverse for wall display.
Dimensions: approx. 35.5 × 59.5 cm; thickness

glass 4 mm
Condition: Very good, minor wear consistent with age; paint layers intact and colors vibrant.
Provenance: Private collection, Belgium
A striking example of Italian decorative glasswork from the 1960s-1980s period, showcasing the period's characteristic use of metallic enamels, stylized figural motifs, and export-oriented decorative design.
