Description

A reproduction of Saint Martin...With a painting in grand feu enamels...On repoussé copper...From the 1960s...With its original frame and its labels of provenance...The plaque is signed at the bottom right of the initials of the artist S. M. ...A chip in one corner, the one at the top left... And small natural manufacturing defects...It is very pretty even if it is not a work from the period of the character represented...!Weight ... 488 gr
