

Cut Crystal And Gilt Bronze Centerpiece, Empire Style, Belle époque

200 EUR

Period : 20th century

Condition : Parfait état

Material : Crystal

Diameter : 22

Height : 12

Description

Magnificent centerpiece in fine cut crystal, adorned in its center with a finely chiseled gilt bronze dolphin. The circular frame features an elegant leafy frieze decoration, which enhances the brilliance and transparency of the crystal. This heavy and refined piece perfectly illustrates the Empire taste revisited during the Belle Époque, a period of the late 19th and early 20th centuries, when the combination of crystal and gilt bronze was very popular. With its generous dimensions (diameter 22 cm, height 12 cm), this centerpiece is a remarkable decorative object, ideal for enhancing a table or enriching a collection of refined art objects.
