Description

Radassier Provençal 3-seater wooden straw bench from the 19th century, a little worn. Authentic Radassier from the Gard. It is very stable and solid, the work would be to wash it, add a crossbar or two underneath, treat it with xylophene, put wood paste on one or two feet, and re-wax it. The 3rd foot on the right is a little apart to put it back in, it will be with the new crossbar. Nothing really complicated and not very long to do, a wooden bar was added all along the bottom, probably following the 2 other broken crossbars, one of which was changed. These radassiers are very often reinforced underneath anyway. Overall dimensions: Height: 44 cm and 98 cm Width: 178 cm
