Description

Bronze column clock France 1820 Type: Column clock Dimensions: Height 52 cm Width 28 cm Depth 18 cm Gilded column clock with 4 columns. The movement is very unusual and has a very heavy compensation pendulum with knife suspension. It is equipped with a scissors and peg escapement system, specially designed for the central second hand. It is partly thanks to this system that the clock runs for 14 days. Strikes every hour and every half hour thanks to a small silver bell. The clock is in good original condition. Signature: Collin in Paris. Description and signature in the Dictionary of French Clockmakers, page 136 Number 157
