Description

Elegant table lamp in carved alabaster, Tuscan manufacture from the early 20th century. The work depicts a young female figure in a graceful pose, with flowing drapery and finely chiselled details. The sculpture stands on a hexagonal base and supports the shaft crowned by the alabaster globe, decorated with a refined fringed motif in relief. Period: early 20th century (circa 1900-1920) Origin: Tuscany Material: carved alabaster Dimensions: H. 62 cm x W. 25 cm x D. 20 cm Condition: excellent overall condition; a slight natural vein can be seen on the upper part of the globe, which is not a crack but a characteristic of alabaster. A decorative piece of great charm, combining function and sculpture, typical of the refined Tuscan alabaster production of the early 20th century.
